

ELEPHANT POWER

Solar Power System

Address & Phone Contact.

- ▶ ***No. 1034, 13-ward, Kyan Sitthar Road, East Dagon, Yangon, Myanmar.***
- ▶ ***09-420053470, 09-666168454***

▶ **Our Vision**

- ▶ To power communities with clean, reliable energy and inspire a sustainable tomorrow. We believe everyone can benefit from the abundant solar energy provided by the sun—helping conserve electricity and protect our natural environment for future generations.

▶ **Our Mission**

- ▶ To deliver high-quality solar and energy storage solutions with integrity, innovation, and exceptional customer care—empowering individuals and communities to achieve reliable, sustainable energy independence.

Customer Service Commitment

- 24/7 support (if applicable)
- Fast installation turnaround
- Warranty & technical guidance
- Transparency in pricing and performance

Elephant Power Team

We specialize in providing reliable solar power systems, inverters, and batteries with complete installation services. Our goal is to make clean energy simple, affordable, and accessible to everyone.

Why Choose Us

**Expert Team -
Certified
professionals
delivering top-
tier installation
and support.**

**High
Performance -
We use only
premium solar
panels,
inverters, and
batteries.**

**Trusted Service
- Transparent
pricing, honest
advice, and
long-term
reliability.**

**Sustainable
Impact -
Powering a
cleaner planet,
one home at a
time.**

**Customer-
Centered Support
- Fast responses,
clear
communication,
and after-sales
care that actually
cares.**

Our Core Service

Installation & Setup

Professional installation for solar systems, inverters, and batteries — safe, fast, and reliable.

System Maintenance

Regular check-ups and performance optimization to keep your system running efficiently.

**ELEPHANT
POWER**

Power Storage Solutions

High-performance lithium and deep-cycle batteries for continuous energy backup.

Solar Panel Systems

On-grid, off-grid, and hybrid setups designed for homes and businesses.

Installation & Technical Services

System Inspection & Configuration – Our engineers testing inverter performance before setup.

On-Site Consultation – Providing guidance and installation planning with customers.

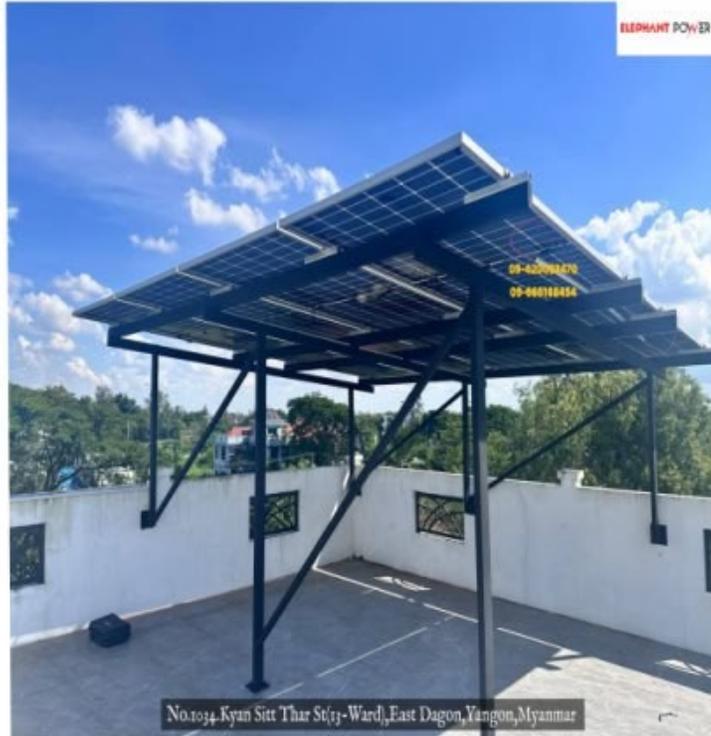

Wiring & Safety Check – Ensuring reliable connection and long-term stability.

Team Installation Process – Experienced technicians working with precision and care.

Our Services

01

☀️ Solar Panel Systems – Design, supply & installation

02

⚙️ Inverters – Hybrid, On-grid, and Off-grid systems

03

🔋 Battery Storage – Lithium & deep cycle solutions

04

🛠️ Installation & Maintenance – Full support from setup to after-service
